VESTA SPORT

Created with sport climbing in mind, these quickdraws feature an ergonomic 12 cm vari-width nylon sling for grabbing while projecting. They have finger grooves on the top keylock solid-gate carabiner for improved clipping and come in two variations with different bottom carabiners: either a keylock solid-gate or the *Vesta Sport Mix* model with a simple wiregate carabiner on the bottom to shave a little weight.

102g/106g

FIREFLY II MIX

Available in 11 or 16 cm Dyneema sling lengths and featuring a keylock carabiner on top and the finger grooves you've come to know and love for ease of clipping and unclipping.

81g/83g

FIREFLY II

Switching out the keylock top carabiner from the Mix to a simple wire gate shaves some weight. This version also come with the same 11 or 16 cm Dyneema slings. Everything you need to get into sport climbing with no compromises in terms of function or safety.

74g/76g

ECHO MIX

The carabiners on the Echo are hot forged with a wider basket and 25kN rating for added strength and durability. The keylock top carabiner has finger grooves in the gate for improved clipping. They come in 11 or 16 cm Dyneema sling options.

76g/78g

CERES ULTRALIGHT ALPINE

Lightweight alpine draws with an 8 mm wide by 60 cm long Dyneema runner for extending the length to minimize rope drag and walking gear or clear a roof.

76g

CERES II ULTRALIGHT

These quickdraws' options for Dyneema sling length include 25, 20, 16, and 11 cm to ensure you always have the right size handy throughout wandering routes, roof pulls, ledges, and reachy clips. All sizes feature compact and lightweight wire gate carabiners.

66g/68g/69g/71g

MYDAS

The ultimate in weight savings without sacrificing strength. One of these quickdraws can weigh less than some single carabiners! Available with 11 or 16 cm Dyneema slings.

55g/57g
